

Please note: The engraving is for a crest not a coat of arms. If you would like a coat of arms, please contact us for a quote.

We would be delighted to help with any special requests.

Crests are engraved in negative to be used as a seal. Initials in positive (surface engraving.)

Lapis Lazuli,	LLAZ
Garnet	GNT

Extra Options

Filling in behind gemstones - 9ct extra £300 18 ct Extra £600

We supply gemstone signet ring with open backs as is the normal tradition. This way you can see through the gemstone in some cases and this is a widely accepted attractive feature. If you wish we can fill in the reverse but this requires significant extra work and extra gold. This extra work will be quoted for if required but on average it adds about £300 to a 9ct ring and £600 to an 18ct ring.

White Gold in 9ct and 18ct - Costs Extra 10%

We can supply signets in white gold which is a mixture of gold, silver palladium and other metals depending on the carat. White gold starts off like silver in the first instance but does slightly yellow up over a relatively short time. Please contact us to discuss.

Rose Gold in 9ct and 18ct - Costs Extra 10%

Can't decide between 9 carat or 18 carat? Please look at FAQ's and our Hallmarked craftsmanship link on the home page.
